Summary

Data analyst with 2+ years of experience across project management, business intelligence, and statistical analysis. Skilled in SQL, Python, Power BI, Tableau, and Excel. Proven ability to automate workflows, visualizes data, and delivers actionable insights for operational efficiencies

Skills

- Data Visualization (Tableau, Power BI)
- SQL Querying & Database Management
- Python Programming for Data Analysis
- Advanced Excel (Pivot Tables, Macros, Power Query)
- ETL Processes & Data Cleansing
- Dashboard & Report Automation
- Statistical Analysis & Predictive Modeling
- Critical Thinking & Cross-functional Collaboration

Experience

Ernst & Young Global Delivery Services (EY GDS)

Pune, India

Associate Data Analyst

08/2023 - Present

- Automated repetitive data collection and report generation tasks using Python, reducing manual effort by 98% and saving 15+ hours weekly across the team.
- Designed interactive Power BI dashboards for client engagement tracking, improving stakeholder visibility and project progress reporting.
- Developed advanced Excel models using pivot tables, complex formulas, and VBA scripts to analyze large datasets, enabling faster decision-making and error reduction
- Led a team to deliver high-accuracy research datasets before deadline, earning organizational awards and recognition.
- Collaborated with cross-functional consulting teams to streamline reporting processes, boosting reporting speed and accuracy.
- Mentored junior team members, developing a culture of technical excellence and continuous improvement..

IBM

Remote

Data Analyst Intern

02/2023 - 03/2023

- Built predictive profit-loss models using linear regression and Python, increasing business forecasting accuracy for client operations.
- Utilized IBM SPSS and Google Analytics alongside Excel for data visualization and advanced statistical analysis, preparing detailed reports for senior management.
- Completed core data analysis and statistics certifications, enhancing technical foundation for real-world analytics projects.

Acmegrade
ML Developer Intern

Remote
01/2022 - 02/2022

- Built and optimized machine learning models (Decision Tree, Random Forest, Logistic Regression) for real-world prediction tasks.
- Developed a breast cancer detection system with increased model performance for accurate diagnostics.
- Engineered and deployed a house price prediction tool, utilizing model selection and intuitive UI for stakeholder use.

flexistrategy
Web Developer Intern

Pune, India
05/2019 - 06/2019

flexistrategy is a startup company dedicated to helping businesses grow online by providing high-quality website design services.

- Developed user-friendly website using HTML, CSS, and JavaScript, ensuring a seamless user experience and responsive design.
- Integrated the Bootstrap framework to ensure a responsive design, optimizing the website's layout for accessibility and mobile compatibility.

Projects

Sales Dashboard (Tableau): Created interactive dashboards for sales KPIs and data-driven decision-making.

"Jarvis" AI Assistant: Built voice-enabled assistant leveraging Open-AI for workflow automation.

Education

Sinhgad College of Engineering
Bachelor of Engineering in Information Technology

Pune, India
2020 - 2023

MIT Polytechnic
Diploma in Information Technology

Pune, India
2017 - 2020

Certifications

- IBM Data Analyst Certified
- Data Science Bronze Badge
- Data Visualization Bronze Badge

Awards

- EY Best Employee Spot Award (2 times)
- EY Achiever Extraordinaire Award (2 times)
- New Joiner Award by EY
